SECURITY SOLUTIONS

## SecureUV Printer

The TROY OfficeJet Pro 8210 SecureUV Printer is a product which will enhance each user's ability to add security to high value printed documents. Utilizing TROY's ultraviolet (UV) print technology, organizations can add a personalized layer of document authentication and fraud deterrence when printing with the OfficeJet Pro 8210.

## Benefits

### Add Layered Security
Utilize BlackUV and SecureUV ink technology to add personalized, covert security features to any of your high value documents.

### Low Operating Cost
Print your documents at half the cost per page of most laser printers, reducing long term consumable cost.

### GENERAL SPECIFICATIONS

| | |

| Duplex | Manual (with driver support) |
| Paper | Letter, Legal, Executive, 8.5x13, A4, A5, A6, B5 (JIS) |
| Warranty | 1 Year return to TROY |

## Features

### TROY Black UV Ink
TROY Black UV Ink adds a hidden UV agent to your black graphics or images. Black UV ink is part of the black (K) cartridge. Everywhere the black text or graphics are printed, this invisible feature appears. The ultraviolet features are only detectable with a UV verification light, adding a protective layer of security to your documents.

### TROY SecureUV Ink
TROY SecureUV Ink provides an invisible layer of security to each of your documents. Printed as either a designated text or graphic, SecureUV can only be detected with a UV verification light. This ink prints simultaneously with your black, cyan, and magenta ink cartridges allowing for a single pass-through print.

| PART NUMBER | PRINTERS & CARTRIDGES | TRAYS / PAGES | YIELD | SHIPPING DIMENSIONS & WEIGHT |
