TROY

SECURITY SOLUTIONS

TROY 200 Mobile MICR Printer
HP Authorized • TROY Enhanced

The TROY 200 Mobile MICR Printer is an ideal solution for businesses who need a mobile check printing solution. The portability of this unit is its most unique quality, providing satellite, mobile, and remote office locations with the ability to print checks on the go. The 200 Mobile features print speeds up to 20 pages per minute and a 50 sheet input tray.

Benefits

Compact and Lightweight
Weighing only 9 pounds, this compact, lightweight printer is ideal for mobile professionals. It can be easily transported in a car, briefcase, or backpack, allowing users to print virtually anywhere.

Remote and Secure
Providing organizations with the ability to print checks remotely without the risk of preprinted security paper, this solution is ideal for remote office locations or in times of crisis. This inkjet solution provides customers with the reliability they expect from TROY.
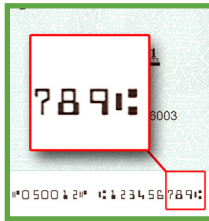

Simple and Versatile
Offering simple mobile printing options, easy setup, and a long lasting battery make this printer the perfect fit for workers on the go such as insurance companies with mobile units, mobile worker payroll or expense checks, trade organizations, realtors, etc.

Features

TROY MICR Ink
TROY MICR (Magnetic Ink Character Recognition) Ink is unparalleled in quality and MICR signal detection. MICR technology uses magnetic reading to identify the unique numbers and characters that appear as the MICR line at the bottom of a check or financial document.

TROY MICR Fonts
MICR fonts, E-13B or CMC-7, are the characters that appear at the bottom of checks or financial documents. It is the combination of ink and fonts that create the machine readable MICR line, which allows for high-speed check clearing. TROY MICR fonts have been optimized for readability and should be combined with TROY MICR ink to ensure a consistently high-level of MICR printing.
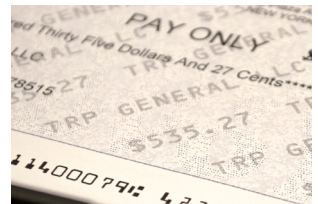

Captivating User Experience
The large, easy-to-use control panel allows for a captivating user experience that provides access to mobile printing options, wireless setup, ink status, battery status, and other information about the printer. The long-lasting battery life allows for reduced interruptions when using this printer in times of crisis and in remote office locations.
